1 + ## Solution Guide: Cloud Security Homework
2 +
3 + ### Solution
4 +
5 + Use a free account at [draw.io](https://app.diagrams.net/) to diagram the entire cloud network you have cr
   eated.
6 +
7 + - Your diagram should show the following:
8 +   - Azure resource group
9 +   - Virtual network with IP address range
10 +   - Subnet range
11 +   - Flow of specific traffic (e.g., HTTP, SSH)
12 +   - Security group blocking traffic
13 +   - Load balancer
14 +   - All five VMs that you have launched
15 +   - Where Docker and Ansible are deployed
16 +   - Availability Zones
17 +
18 + **Solution:**
19 +
20 + Navigate to [draw.io](https://app.diagrams.net/) and choose a location to save your work.
21 +
22 + 
23 +
24 + Choose a Network Diagram Template to modify.
25 +
26 + 
27 +
28 + Verify that you have all of the Networking icons in the bottom of the left panel.
29 +
30 + 
31 +
32 + Your finished diagram should look similar to the following:
33 +
34 +
